## 3M™ SuperCloseProjection System SCP712

Designed with a modular “build what you need” concept, the 3M SCP712 gives you the benefit of the 3M Vikuiti™ Super Close Projection Technology with the flexibility of the basic VGA and USB connections, all the way up to a fully integrated system that can turn a standard whiteboard into an interactive annotation system.

A complete solution that:

- Is Less Costly to install than ceiling mounted projectors.
- Virtually eliminates distracting shadows.
- Can save space and dollars in the classroom by utilizing a standard dry erase board...with the Interactive option.

SCP712.M6 - Projection system including Folding Arm/Wall Mount, Speakers, Annotation and I/O Module. **NYS Contract PC60524 Price \$2,837.47.** Please inquire about setup and installation charges.

The SCP712 Features:

- 3M Vikuiti™ Super Close Projection technology
- 2000 lumens
- folding wall mount with or without speakers
- Full connectivity with I/O Module
- 3M Electronic Whiteboard Sensor with Annotation Module
- XGA (1024 x 768) resolution
- 3 patented wall mount options
- fixed wall mount
- 60"-80" variable image with wall mount

SCP Lamp Kit - Additional Lamp for the SCP712 will be @ \$295

Call PCU today to provide you with further details in regards to dry-erase board and blackboards.
